

CARVART's new innovative interior and exterior glassRAILING system features a **completely flush, structurally glazed** product that **conceals all attachment methods**. With **no visible hardware**, the glass provides **elegant** and **seamless** lines.

**Structural interlayer** and **specialty glass** with **color, texture** and **pattern** give a high level of stability while providing flexibility for **creativity**.

The system is **pre-glazed to hardware** for **easy site installation**.

## glassRAILINGS > Plan

Unique pre-glazed system, available in three configurations.

### 1. Railing

### 2. Full Height

### 3. Railing +Full Height

TYPICAL VERTICAL SECTION

## Specifications

### glassRAILINGS > Plan 1

CARVART's innovative railing/cladding solution is structurally glazed to conceal all mounting hardware and give the system a frameless, flush look. Available for interior and exterior, the glassRAILINGS > Plan can be configured to create stunning railings or flush cladding and enclosures.

### APPLICATIONS —

Railings/balustrade (interior and exterior), enclosure cladding, staircases

### HARDWARE —

Concealed structural aluminum cleats at wall anchored to client-supplied substrate are pre-installed prior to installation of the glass railing.

Glass railing is pre-glazed in the factory to a continuous structural aluminum profile that is cured to strength and can easily snap in to place and fastened to the aluminum cleats.

### MOUNTING —

-Structurally Glazed Single Profile (typical railing)

### GLASS THICKNESS —

Tempered laminated:  
-Maximum 1" [25mm]

### WARRANTY —

1 Year Limited Warranty

Specification Code: **GR-RAIL-PL1**
