Specification Notes

- Frosted transparent glass has an inherent colored tint through the product.
- Each board supplied with the appropriate number of stand-offs to ensure wall load-bearing integrity. Refer to the quote for actual number per board.
- Panels up to 120" may require special considerations to transport into a building which is the responsibility of the dealer and their installer.
- Permanent markers are not recommended as appropriate for glass surfaces.

Surfaces

Smooth (S) is the most common characteristic of clear glass, prominent in all aspects of everyday life.

- Writable with erasable markers.
- Normal expected glare and fingerprinting.
- Reflective.
- Non-oil absorbing.
- Suggested for horizontal and vertical applications.
- Cleans easily with common glass cleaners.

Opaque

Transparent

WriteEtch (W) is an innovative surface that resists stains and is non-reflective. The surface is slightly-abraded which results in a softer, uniform frosted appearance.

- Writable with erasable markers.
- Glare and fingerprints are minimized.
- Uniform frosted appearance.
- Non-oil absorbing.
- Recommended mainly for vertical applications.
- Cleans easily with common glass cleaners at a more occasional rate than Smooth glass.

Etch (E) is a smudge-proof glass surface that is slightly-abraded and allows for a high degree of light transmission. Its pleasant diffusing of light and imaging through the glass can aid privacy in environments.

- NON-Writable.
- Glare and fingerprints are minimized.
- Uniform frosted appearance.
- Non-oil absorbing.
- For horizontal and vertical applications.
- Cleans easily with common glass cleaners at a more occasional rate than Smooth glass.
